

Project No. **ROWL-0048**

May 15, 2023

Town of Rowley  
Conservation Commission  
39 Central Street  
Rowley, MA 01969

Subject: 221R Main Street- Cricket Field  
Stormwater Runoff

Dear Commission Members,

This letter is being provided as a request relief from the need for a Stormwater permit for the 221R Main Street cricket field project.

Stormwater runoff, per industry standards, is identical for equivalent acreage of a hay field and a mowed grass athletic field.

Given the work planned for the construction of the cricket field is trading the hay field for the mowed athletic field, we expect no adverse stormwater effects to the abutting properties once the turf is established.

Given the information above, it seems reasonable to waive the requirement for the Stormwater Permit process.

Please do not hesitate to contact me directly if you need anything regarding this matter.

Sincerely,

WILLIAMS & SPARAGES LLC

Richard L. Williams, P.E.  
Principal
